

# Keith Billings

Beaverton, OR | (503) 709-9897 | [keithbillingsbusiness@gmail.com](mailto:keithbillingsbusiness@gmail.com)

## Summary

Front end specialist, primarily works with React. Currently working for Brandlive as a web developer and software engineer. Enjoys problem solving, always learning, and helping those around him be the best versions of themselves. Positive attitude, ambitious, and always keeps a level head.

## Skills

React, HTML, SCSS, JS, Typescript, Node.js, Figma, Next.js, and more.

Knows how to work with a team, help plan sprints, use Jira and Figma, and have great communication

## Experience

Web Developer - Brandlive

March 2021 - present

Front end specialist. Part of the custom development team, and one of the platform dev teams. Creates new features, fixes UI bugs, and builds entire custom events. Works on the streaming platform, integrates metrics, APIs, widgets, custom components, and more. Work has been seen by millions across the globe. Currently in a leadership position, leads projects, teaches, and reviews code, along with normal day to day duties.

Tech Used: HTML, SCSS, JS, React, TypeScript, Git, Figma, Node.js, D3, and house platform tools.

Junior Full Stack Developer - Kyflex

Dec 2020 - March 2021

Worked on creating a robust front end UI with React, and converting the back-end from Django to Node. Tasked with doing social media authentication and integration, search features, and data display.

## Education

University of Oregon - Full Stack Web Development Bootcamp

Received training, experience and certificate of completion in the MERN stack and supplemental technologies.
